Other remarks	The three professors (Shoji Kawate, Yasuo Hibata and Kenjiro Omura) who had managed the Land Use lab in the Urban Planning unit of the Institute of Policy and Planning Sciences at the University of Tsukuba, donated books and documents of the urban planning as the Land Use lab collection, and now the whole list of the collection was completed as a database to be accessible by researchers. The collection includes some old books of early 1900s, and lots of German literature on German urban planning.
