Title	Data on the route of infection extracted from the press release on the outbreak of COVID-19 in Saitama Prefecture.
Creator	Yukie Sano, Chiemi Watanabe
Contact information	sano@sk.tsukuba.ac.jp
Summary (Subject and/or Methodology for generation)	We extracted information on the infection route of COVID-19 from the press releases of Saitama Prefecture and various municipalities in Saitama. Specifically, for each positive person, we extracted the positive person number of the suspected source of infection, the category of infection (e.g., household infection, workplace infection), and related keywords. We used Yahoo! Crowdsourcing to extract the data from the press releases.
Update History (Versions, File names, Dates)	Ver1.0 saitama_1221-6500.csv 2021.4.13
