Summary (Subject and/or Methodology for generation)	<p>Subject: The data is the town-level collection of facilities in Tokyo Wards. It includes the number of facilities divided by type of facility and density of all facilities.</p> <p>Methodology for generation: We downloaded point and polygon data of amenities and shops from OpenStreetMap, and summarize by type of facility within town of 2020 census. Note that polygon data are summarized based on their centroids.</p>
